Carolina Perfusion Symposium Prospectus

Date: July 19th - July 21st

Location: Myrtle Beach, South Carolina, USA

Hello there!

We're thrilled to invite you to join us as a vendor at the 4th annual Carolina Perfusion Symposium! This year, CPS is a joint effort between Perfusion Life, MUSC, and the North and South Carolina Perfusion societies. This event attracts nearly 100 perfusionists from more than 25 states, also many surgeons and cardiac anesthesiologists from across the region, ECMO and VAD specialists, and industry leaders like you for a few days of learning, networking, and fun in beautiful Myrtle Beach.

Here's what you can expect:

- Engaging talks and workshops covering current advanced perfusion techniques and the latest variations in cardiac surgery.
- Opportunities to showcase your products and services to a targeted audience eager to learn about the latest innovations.
- Ideal occasion to connect with potential customers and collaborators in a laid-back, welcoming atmosphere.
- Family-friendly activities sponsored by Perfusion Life, so attendees can bring their loved ones along and enjoy the beach together.
- Discussions on organ procurement and updates in perfusion education, keeping everyone in the loop on the latest trends and developments.

Why should you exhibit with us?

- Get your brand in front of key players in the perfusion world while enjoying the relaxed vibe of Myrtle Beach.
- Sponsorship packages tailored to fit your goals and budget, including opportunities to support the meeting with speakers and meal options.
- Personalized support from our team at Perfusion Life and the Palmetto State Perfusion Society.

We're all about making connections, sharing knowledge, and having a good time while we're at it. We'd love to have you join us at the Carolina Perfusion Symposium!

For more info on sponsorship and exhibition opportunities, reach out to Adam@PerfusionLife.com and mobile: (919) 302-6255.

Looking forward to seeing you there!

Cheers,

Kenneth Ingersoll

President, Palmetto State Perfusion Society
